---

Dear Secretary Sebelius,

I urge you to consider contraception an important part of preventative health care.

Please:

- Realize that contraception is part preventive care for women, and access to wide-ranging contraceptive care is in the best interest of women's health, children, and our communities.
- Support cost-sharing for preventive care services like contraception.
- We will not accept anymore unnecessary and unreasonable delays in access to contraceptive care as preventative health services.

Thank you so much for your time and support,  
Melissa
